

GICA STORM RESPONSE INFO - FINAL UPDATE FOR TS Barry Event - 1400 CDT 16 July

COTP Houma has set Port Condition NORMAL for Morgan City. Navigation through the Berwick Bay VTSA has resumed with certain restrictions due to shoaling and reported currents. See attached MSIB.

GIWW is OPEN to navigation from Brownsville, Texas to St. Marks, Florida for normal operations.

All floodgates and locks are open and operating with the exception of the Harvey Lock. Emergency repairs to the lock crane are underway – expected to be completed on 17 July.

This will be final storm message from GICA on this event.

Make your plans: GICA's 114th Annual Seminar is coming to the InterContinental New Orleans, August 7-9.

See <https://2019GICA.eventbrite.com> or www.gicaonline.com for registration details.
